

## **Google files writ with Delhi High Court against CCI following confidential report leak**

*Google aims to prevent any further unlawful disclosures of confidential findings  
by the CCI investigative arm*

**23 September 2021, New Delhi:** On September 18, 2021, a confidential interim fact-finding report submitted by the Director General's office to the Competition Commission of India (CCI) relating to an ongoing investigation into Google's Android smartphone agreements was leaked to the media. Google has not yet received or reviewed this confidential report.

Today, Google filed a writ petition in the Delhi High Court seeking redress in this matter, specifically protesting against the breach of confidence which impairs Google's ability to defend itself and harms Google and its partners.

Commenting on the petition with the high court, **a Google spokesperson** said, *"We are deeply concerned that the Director General's Report, which contains our confidential information in an ongoing case, was leaked to the media while in the CCI's custody. Protecting confidential information is fundamental to any governmental investigation, and we are pursuing our legal right to seek redress and prevent any further unlawful disclosures. We cooperated fully and maintained confidentiality throughout the investigative process, and we hope and expect the same level of confidentiality from the institutions we engage with."*

The DG's findings do not reflect the final decision of the CCI and the submission of the investigation report is an interim procedural step. Google has not yet had the opportunity to review the DG's findings, much less submit its defence of any allegations.

### **About Google:**

Google's mission is to organize the world's information and make it universally accessible and useful. Through products and platforms like Search, Maps, Gmail, Android, Google Play, Chrome and YouTube, Google plays a meaningful role in the daily lives of billions of people and has become one of the most widely-known companies in the world. Google is a subsidiary of Alphabet Inc.
